

AURIVO — END USER LICENCE AGREEMENT (EULA)

Last updated: 31 July 2026

This EULA governs your use of the Aurivo software. It supplements the Aurivo Terms of Service. By installing, accessing or using the Software you accept this agreement.

"Software" means the Aurivo panel, the Aurivo bridge server, the Aurivo Expert Advisor for MetaTrader 5, any installer, and all updates and documentation.

The Software is licensed by LV Properties Australia Pty Ltd (ACN 653 554 959) trading as Aurivo Trading, Melbourne, Victoria, Australia ("we", "us", "Aurivo").

1. LICENCE GRANT

We grant you a personal, non-exclusive, non-transferable, revocable licence to use the Software for your own trading, for as long as your subscription is active and paid. The Software is licensed, not sold. We retain all ownership.

2. WHAT YOU MAY DO

- Use the Software to trade your own MetaTrader 5 account with your own broker.
- Access your panel from as many of your own devices as you like.
- Use it for personal or your own business trading.

3. WHAT YOU MAY NOT DO

You must not:

- share, resell, rent, lease, sublicense or redistribute the Software or your access link
- share your access credentials with any other person
- use the Software to trade an account belonging to someone else, or to manage another person's funds
- copy, decompile, disassemble, reverse engineer, or attempt to derive the source code
- modify, adapt, translate or create derivative works
- remove or obscure any copyright, branding or licence notice
- circumvent, disable or tamper with the licence check or any security mechanism
- use the Software unlawfully, or in breach of your broker's terms
- use the Software to build a competing product

4. LICENCE BINDING AND VERIFICATION

Your licence is bound to the cloud machine allocated to you. The Software periodically verifies that your subscription is active. If your subscription lapses, is cancelled or is refunded, the licence terminates and access stops. Loss of function following non-payment, cancellation or termination is not a defect.

5. HOSTED DELIVERY

5.1 How the Software reaches you. The Software is not downloaded or installed by you. It is made available preinstalled on a virtual private server we provision and administer for you (your "Machine"), described in clause 10 of the Terms of Service. You are licensed to use the Software only on that Machine, only while your subscription is current, and only in connection with your own MetaTrader 5 account.

5.2 Nothing leaves the Machine. You must not copy, extract, mirror, export, image or otherwise remove the Software or any part of it from your Machine, whether to another server, your own computer, or any storage or repository. You must not remove or interfere with licence keys, version markers, scheduled tasks, keepalive processes, telemetry or eligibility checks on the Machine.

5.3 Our access. We retain administrative access to the Machine for provisioning, support, patching and updates. You must not revoke, block or interfere with that access; doing so ends this licence and may make the Service

impossible for us to provide or support.

5.4 Configuration is yours. Settings, sizes, zones, ladders, automated management parameters and MetaTrader 5 configuration on the Machine are yours and are your responsibility. We may reset configuration where necessary to restore a working service.

6. UPDATES

The Software updates itself automatically so all users run a current, supported version. Updates are covered by this EULA. We may change, add or remove features. We are not obliged to maintain backward compatibility with any prior version. An update may restart Aurivo components on your Machine; such restarts do not open, modify or close positions.

7. THE SOFTWARE IS A TOOL, NOT ADVICE

The Software executes instructions you give it. It does not advise, recommend, signal or select trades, and it does not trade on your behalf. Every trading decision and every order is yours. See the Aurivo Risk Disclosure.

8. NO WARRANTY

To the maximum extent permitted by law, the Software is provided "as is" and "**as available**", without warranty of any kind — express or implied — including any implied warranty of merchantability, fitness for a particular purpose, accuracy, availability, or non-infringement.

We do not warrant that the Software will be uninterrupted or error-free, that defects will be corrected, or that it will meet your requirements.

Nothing here excludes any guarantee under the Australian Consumer Law or other law that cannot lawfully be excluded.

9. LIMITATION OF LIABILITY

To the maximum extent permitted by law, we are not liable for any trading loss, lost profit, lost opportunity, data loss, or any indirect, incidental, special or consequential loss arising from the Software, from your Machine or its hosting provider, or from any update, restart or reboot of either.

Our total aggregate liability for any claim is limited to the fees you paid us in the three (3) months preceding the claim.

10. THIRD-PARTY SOFTWARE

The Software works with MetaTrader 5, supplied by MetaQuotes, and with your broker's systems, and runs on infrastructure supplied by third-party hosting providers. Those are governed by their own terms, and we are not responsible for them. Aurivo is not affiliated with, endorsed by or sponsored by MetaQuotes or any broker. MetaTrader is a trademark of MetaQuotes Ltd.

11. TERMINATION

This licence ends automatically if you breach it, or when your subscription ends. On termination you must stop using the Software, your access is revoked, and your Machine is released and **permanently destroyed** together with every copy of the Software on it, in accordance with clause 10.8 of the Terms of Service. We hold no backup and cannot restore a Machine once released. Export anything you wish to keep before your subscription ends.

12. GOVERNING LAW

This EULA is governed by the laws of Victoria, Australia, and you submit to the non-exclusive jurisdiction of its courts.
